

City of ABCD (Example)

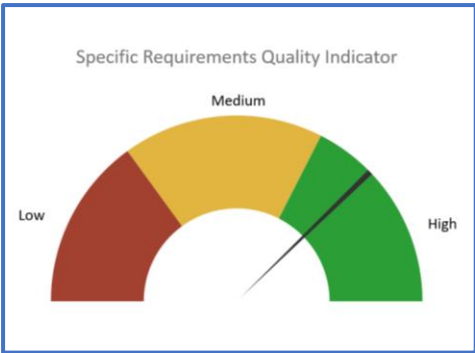

Value Proposition				Recommendations
IT IS	An assessment to provide an indication of the overall quality of the grant application for the City of ABCD as they apply for funding to increase broadband connectivity	THAT	Helps you get more awards from agencies providing grants as your organization establishes itself as a credible grant writing agency.	<ul style="list-style-type: none">By including an objective in the grant proposal that clearly articulates the “why” it will support your overall ability to secure the funds.Ensure all relevant documents are includedDo not forget about the admin costs associated with the application.
FOR	Anyone pursuing grants as an additional source of funding related to broadband connectivity	UNLIKE	No or internal only reviews which can cause critical information to be left out or unclear.	

Findings	Recommendations
Missing key sections that will increase quality	There are two sections that need to be enhanced to increase the overall quality of the application. A detailed workplan and an objective.
Clarify to match requirements	Provide concise statements that do not use technical jargon or acronyms. Simplify rather than complicate to reduce word count.
Ask for more	Ensure your organization is asking for the maximum amount of money the agency is offering and provide justification.

Findings	Recommendations
Align grant opportunity and organization priorities	Provide a clear and concise objective that aligns with the several organization IT priorities it will address. Attend training to get more insight on populations to be impacted.
Quality of writing	Remove acronyms and ensure objective included to consider complete.
Communicate the feasibility of implementing the project.	A strong workplan highlighting how you will get from A to B is necessary here. And don't request less funding than could be obtained.

Findings	Recommendations
Get additional contract quotes for comparison	Show you have done due diligence by getting several quotes and highlighting the average cost of those contractors.
GIS mapping was incomplete	The GIS maps provided do not include the entire area that you indicated would be impacted. Ensure this is updated and accurately reflects.
